

Subscriptions Corporate Edition

Reduce costs. Save time. Remove duplication

SwetsWise Subscriptions is the most comprehensive subscriptions management and procurement service available. By making the process of finding, ordering and managing subscriptions easier to handle, SwetsWise Subscriptions will help you to satisfy your users' content needs in the most cost-effective manner for your organization.

Swets understands the essential role you play in your organization's cost reduction efforts. However, if many people are ordering subscriptions without a process in place to manage them efficiently this can result in the accumulation of unnecessary costs, with valuable time and effort being wasted on all levels.

Maintaining relationships with thousands of publishers for thousands of different publications is complex and takes users away from their primary tasks. We can help. SwetsWise Subscriptions can become an integral part of your organization's cost reduction program, providing the essential interaction with publishers needed to ensure the timely delivery of subscriptions in the format your users require.

Optimize your spend

- Remove unnecessary duplication and 'rogue' spending
- Choose to include an approval cycle on purchases
- Reduce the spend on subscriptions

Save time

- Manage thousands of subscriptions from one interface
- Receive fewer invoices
- Find and order content quicker
- Manage existing subscriptions more easily

Acquire. Access. Manage – All in one online purchasing environment!

Our comprehensive SwetsWise portfolio of services integrates all the tools you need to acquire, access, manage and evaluate your subscriptions. SwetsWise Subscriptions, the core element of this portfolio, provides a user-friendly, web-based interface that enables de-centralized purchasing across your entire organization. SwetsWise Subscriptions can also be easily integrated into an existing e-procurement environment.

SwetsWise Subscriptions puts a complete overview of your organization's subscriptions at your fingertips and fully automates approval processes. As a result, you will gain greater control over your company's subscription spend and unparalleled knowledge of how that content is being used and distributed throughout your organization.

How does SwetsWise Subscriptions work?

It could not be easier. After your SwetsWise Subscriptions account is set-up, you simply provide us with a list of your current subscriptions and we will renew them. From this single interface you will be able to oversee the purchasing and claiming activity on all of your organization's subscriptions.

Extensive order functionality with high level of control

- Rapidly growing catalog of more than 260,000 titles
- Catalog is searchable using basic and advanced search functionalities
- Easy to select items from search results
- Clear pricing information
- Electronic Shopping Cart for easy ordering

What does SwetsWise Subscriptions include?

- Fully customizable interface
- Payments via Invoice, Credit Card or Purchase Cards
- Optional integration with e-procurement systems (eg. Ariba, SAP)
- Two-level approval cycle for orders and renewals
- Comprehensive management reports
- Single Sign On (SSO) authentication – an option that provides one password for your entire organization

SwetsWise Subscriptions enables you to designate who, within your organization, is authorized to purchase subscriptions, on budgetary and department levels. As a result, your organization will minimize the duplication of orders which reduces the amount of time, effort and money being wasted. SwetsWise Subscriptions will help you to evaluate the subscriptions you have and how they are being used, making the whole process of managing subscriptions easier to handle and more cost-effective.
