Title Bank

The easiest way to browse your entire collection

SwetsWise Title Bank is an online tool that enables you to create a customized, browsable A-Z list of all the print and electronic titles contained in your organization's collection. Swets understands that one of your key requirements is to ensure that your end users can easily find and access the information they are looking for easily. We can help.

SwetsWise Title Bank is more than just an A-Z of your subscribed publications. It also provides links to where your end users can access the content of those titles, whether the information resides on a publisher's website, in your own intranet server or in our electronic journal gateway service, SwetsWise Online Content.

A complete overview of your entire holdings

Each and every subscription that Swets handles for you is automatically added and maintained in your SwetsWise Title Bank list. You can also enter the details of subscriptions that may be handled by other agents or arranged directly with publishers. Having a complete overview of your collection available in such a handy, easy to browse format will inform your end users of all the subscriptions and content available to them in a straightforward manner.

- Customize the interface and user options available
- Flexible enough to control title listings, subject headings and holdings information
- Simplified title list administration included with checkboxes for enabling databases
- Online usage reports help you track usage across your organization

The quickest way to find a title

With its intuitive interface, designed to speed up the process of gaining access to subscribed content, SwetsWise Title Bank provides the fastest means for your end users to locate specific titles. It also displays a list of available resources from which titles can be accessed, saving time and effort.

- A single point of access to all your print and electronic resources
- Searching and browsing available across journal titles
- Subject specific browsing possible within primary and secondary subject headings
- Integrated TOC and search alerts available
- Browse or search for all available databases with individual descriptions added by your organization

How this fits in with your overall SwetsWise solution

SwetsWise Title Bank's comprehensive and versatile capabilities ensure maximum use of your organization's content. All subscriptions handled via Swets are automatically maintained in SwetsWise Title Bank. Administrative utilities allow you to upload additional lists quickly and efficiently. You can also enter lists manually. The powerful combination of SwetsWise Title Bank and SwetsWise Online Content – your gateway to the largest collection of electronic journals currently available – will provide your users with the perfect environment from which to browse and access your entire collection.
